You are going to write an article for an English website.

Before writing, you are going to watch a short video presentation.

The video will be shown twice.

You can take notes if you wish.

After viewing the video presentation, you will have 60 minutes to write your article.

You must follow this plan:

- *give a short summary of the content of the talk (about 80 words);*
- *express your opinion / emotions, describe your experience in relation to the topic discussed (about 170 words);*
- *comment on the speaker's presentation skills (manner of speaking, visuals etc.) (about 50 words).*

Write at least 250 words, but no more than 300 words.
